

H2O Fido™ Premium Water System Kiosk

Commercial Grade Automation for Kg Splash Pads

H2O Fido Premium water system kiosks offer our most complete, secure and comprehensive control of your splash pad. They include a manifold assembly with 304 stainless steel header and our Premium splash pad controller with the best Siemens® components to control up to 24 different spray effects. You will also get the water saving advantages that these systems avail you of like operating times, operating days of the week and even preset water usage control programs. Each includes a locking, steel enclosure to keep everything secure in most any setting or environment.

Manual Mode enables quick check of valves, sprays and pumps for external issue isolation

Closed on Sunday? Clear and easy operating calendar to set days and hours of operation

Choreograph each spray (or spray group) with touch-n-toggle simplicity. Endless combinations - or - create 3 pre-set patterns

Color-coded prompts quickly guide you through 4 simple touch screens. Your park can be fully automated in minutes!
